

IT'S GREAT TO BE AN ENGINE

(O'Donnell / Campbell)

- Ch1: Oh yes it's great to be an engine and go steaming along
Puff puff puffing along, peep peep peeping along
All the people waving as you speed along, puff puff puffing along all day
- Vse1: We're all so proud to be famous engines and travel through the countryside
We're always brave when there's hills to climb
No mountain is too high
- Ch2: Oh yes it's great to be an engine as you're steaming along
Puff puff puffing along, peep peep peeping along
Fly along the rails, as your wheels go round, whiz whiz whizzing around all day
- Vse2: It doesn't matter come rain or shine, there's always things for us to do
And in the cold cold wintertime we're ready when you
Light the fire and stoke the boiler and we'll be there for you.
- Ch3: Oh yes it's great to be an engine as you're steaming along
Puff puff puffing along, peep peep peeping along
Feel the wind around you as you push along
Puff puff puffing along all day
- Narration: How wonderful it would be to live on the magical island of Sodor
Helping Thomas the Tank Engine and his friends – all day long
It would be like a dream come true – if only I could be an engine too
- Ch2: Oh yes it's great to be an engine as you're steaming along
Puff puff puffing along, peep peep peeping along
Fly along the rails, as your wheels go round, whiz whiz whizzing around all day
- Ch1: Oh yes it's great to be an engine and go steaming along
Puff puff puffing along, peep peep peeping along
All the people waving as you speed along, puff puff puffing along.
- Outro: Peep peep peeping and puff puff puffing and steam around all day
