

NEVER NEVER NEVER GIVE UP

(O'Donnell / Campbell)

Vse1: If you climb the highest mountain, cross the river deep
Maybe you'll find it's never as easy as it first appears (as it first appears)
Just remember not to worry, or get down at heart
Never lose faith in positive thinking
You'll be amazed when you achieve, all the things you start (all the things you start)

Ch: Never never never give up, even though the going's tough
Don't stop trying when you're tiring, and you're out of puff
Never never never give up even though you're feeling rough
If at first you don't succeed – never never never give up

Vse2: If at first you don't succeed, then try and try again
Nothing in life is ever as easy, but you get there in the end (get there in the end)
Blow your cares and woes behind you start a brand-new day
Nothing can stop you reaching your goal
If you're determined – you can do it, you will find a way, (you will find a way)

Ch: Never never never give up, even though the going's tough
Don't stop trying when you're tiring, and you're out of puff
Never never never give up even though you're feeling rough
If at first you don't succeed – never never never give up

Mid: Some things seem impossible – answers hard to find
No matter how improbable, you won't know until you've tried
You can do whatever you choose it just takes a little luck
So remember, never never never give up.

Ch: Never never never give up, even though the going's tough
Don't stop trying when you're tiring, and you're out of puff
Never never never give up even though you're feeling rough
If at first you don't succeed – never never never give up

Ch: Never never never give up, even though the going's tough
Don't stop trying when you're tiring, and you're out of puff
Never never never give up even though you're feeling rough
If at first you don't succeed – never never never give up
