

SALTY

(O'Donnell / Campbell)

Vse1: There's a dockside diesel we know well who can spin a yarn – who can tell a tale
He loves the sea and the ships that sail, salty is his name

Vse2: He works do hard- he's very very proud his friends all love him being around
When the sun goes down – they'll gather round for a tale or a song of the sea

Bridge: Onward the sailor's song – follow on salty's song
Follow the leader home – follow the leader home

Ch1: Salty – tell us another one, salty – spin us another one
Salty – can it really be true, salty- oh salty help make our dreams come true.

Vse3: Everyone knows troublesome trucks push their luck get the engines stuck
But someone knows just what to do, salty is his name

Vse4: When he rolls along - he hums his song, a pretty little song and they tag along
And his rhythm makes them follow on, homeward bound they go.

Bridge: Onward the sailor's song – follow on salty's song
Follow the leader home – follow the leader home

Ch2: Salty – sing us another one, salty – spin us another one
Salty – we will follow you, salty oh salty – we'll always follow you

Ch1: Salty – tell us another one, salty – spin us another one
Salty – can it really be true
Salty- oh salty help make our dreams come true, we'll always follow you,
help make our dreams come true.
